A FEMALE FORGER.

A Mania for Speculation Ruins a Once Happy Life and Ends in Crime.

BUFFALO, N. Y., Oct. 9.—A dispatch a few days ago stated that the Mrs. Kate F. Dee, the wife of a Buffalo lawyer, was in jail in Baltimore on the charge of obtaining money upon a forged check. The only lawyer of that name is John A. Dee, and until last night he refused to talk upon the subject. He made a statement in which he admitted that the woman was his wife, but they had separated about four years ago, she taking his child and he providing means for its proper maintenance. She shortly after left Buffalo and has lived in the east since. Several years ago, when the Dees lived in Chicago, the wife developed a mania for speculating in stocks and lost a large sum of money. She at once mixed her husband up in other transactions which cost him large amounts. They moved to Buffalo and she continued the same practices here until Mr. Dee insisted upon a separation. He says she has been a slave to the opium and morphine habits for years and therefore is not morally responsible for her actions. Mr. Dee says that the interests of justice will be better served in her case by confining her in an asylum than in a state prison.

WURTEMBURG MOURNS.

Final Preparations for the Funeral of the King.

STUTTGART, Oct. 9.—Emperor William, of Germany, arrived here today to attend the funeral of the late King of Wurtemburg. His majesty was received at the station by King William II, successor to the deceased monarch, the Princess of Wurtemburg, Prince Henry, of Prussia, and a number of distinguished military and civil functionaries. The emperor proceeded to the castle, where he placed a magnificent wreath of flowers upon the casket. After kneeling beside the casket and praying, the emperor arose and engaged in conversation with King William II. The Grand Duke Michael, of Russia, in view of the fact that the wife of the late King was a Russian princess (the Grand Duchess Olga, daughter of the Czar Nicholas) has come to Stuttgart to attend the funeral as the representative of the Czar.

INGALLS IN CHICAGO.

The Kansas Orator Talks on "Problems of Our Second Century."

CHICAGO, Oct. 9.—Ex-Senator Ingalls, of Kansas, lectured to a big audience at the Auditorium last evening, his subject being, "Problems of Our Nation's Second Century." He was introduced by Governor Fifer. While he devoted himself mainly to politics and the relations of labor and capital, he referred at length to the world's fair, declaring that it would undoubtedly surpass all previous events of its kind. He expressed himself in favor of keeping the fair open on Sunday, notwithstanding the protest of Col. Elliott Sheppard and other pious New Yorkers. Mr. Ingalls was in a perfectly happy vein and kept his audience in a state of appreciative delight for nearly two hours.

CRIMINAL PRACTICE

Leads to the Arrest of Dr. Schroder of Chicago.

CHICAGO, Oct. 9.—Dr. Nicholas J. Schroder is under arrest, charged with killing Mary Murphy by means of criminal practice. The girl died at the doctor's house, 559 Twenty-seventh street, early in the morning of September 30. The following day she was buried at Calvary. The mere fact of the funeral being held so soon after the death was enough to arouse suspicion, and yesterday the doctor was placed under arrest. The coroner's investigation developed that the woman had died from the effects of a criminal operation; that the person who had performed it had lost one of his instruments, which was found in her remains, and in his attempt to recover it had horribly mutilated the body.

ANOTHER FAILURE.

A. S. Mann & Co. Make an Assignment.

ROCHESTER, N. Y., Oct. 9.—A. S. Mann & Co., one of the oldest and most reliable dry goods firms in the city, made a general assignment this morning. The failure is a complete surprise. The firm's money was locked in western lands and it was unable to tide over the emergency. The liabilities are over $100,000 and the assets are about $72,000. The H. B. Claflin company, of New York city, are the largest creditors; their claim is $50,000. They are preferred to $20,000, and the assignment is supposed to be made in their interest.

A New Bank.

NEW YORK, Oct. 9.—Articles of association of the Plaza bank, with a capital of $100,000, were filed yesterday. Among the stockholders are William C. Brewster, T. C. Eastman, W. O. Havemeyer, William Rockefeller, William L. Strong, William C. Whitney, Woodbury G. Langdon, J. J. Astor, C. P. Huntington, Addison Cammack and Morris K. Jesup.

The Joint Debate.

Campbell made the opening and closing speeches and made strong and convincing arguments against high tariff. Both speakers were warmly applauded.

TROUBLE FEARED.

The Declaration of Some of Parnell's Enemies to Attend His Funeral Causes Fears of a Riot.

LONDON Oct. 9.—A large number of McCarthyites, including Mr. McCarthy himself, are expected to take part in the funeral of Mr. Parnell at Dublin on Sunday. Mr. Redmond has openly declared that should "Foul-Mouthed Healy," as he calls him, and others who have indulged in personal abuse of Parnell, present themselves, they will be driven off, and be lucky if they escape without injury. Mr. Redmond says as an intimate friend of Parnell, that nothing stung the Irish leader to the quick so much as Healy's abusive allusions to Mrs. O'Shea, both before and after she had become Parnell's wife. On reading or hearing of these insults, Parnell would quiver like an aspen, and compress his lips, as if to restrain the utterance of his feelings. Mr. Redmond says he has no doubt that Healy's taunts had a good deal to do with bringing about Parnell's death, by breaking down his nervous system, and worrying his mind. It is said that while Dillon and O'Brien have not talked in public, have made some remarks in private of a highly interesting character. Dillon, according to trustworthy rumor, is not at all confident that Mr. Parnell's death is likely to benefit the Irish party. He could reason that Mr. Parnell's efforts to maintain a personal party had a tendency to induce those opposed to his plans to unite with redoubled energy to prevent his success, and that the motive being withdrawn there may be an absence of the unity that has heretofore characterized the national movement. Such are among Mr. Dillon's reported views, and it is said that Mr. O'Brien shares them. At any rate, neither has a word for the public on the subject of Parnell. Mr. Gladstone was greatly disappointed by the result of the Manchester election. He had taken a deep interest in the struggle, and hoped that Mr. Scott, the liberal candidate, would pull through. Had he done so, Mr. Gladstone was prepared to welcome his election as a harbinger of triumph in the general contest, whenever it may come.

JUMPED THE TRACK.

Bad Wreck on the Erie in Which One Man is Killed and Two Others Wounded.

RIDGEWOOD, N. Y., Oct. 9.—Two sections of freight trains on the Erie road were thrown from the track near here this morning by the breaking of a wheel. Before there was time to send out a danger signal an extra train, carrying trainmen from Patterson to Warwick, dashed into the wreck, badly damaging the locomotives and knocking the caboose to pieces. Engineer Bloker was thrown among the wrecked freight cars. He was badly bruised, but no bones were broken. Fireman Tibbets had his leg broken and was badly scalded by escaping steam. Brakeman Pauline was also seriously injured. Nearly all the trainmen were thrown from their seats by the collision, but with the exception of slight bruises none were seriously injured. Both tracks were blocked for several hours, and traffic in consequence was much delayed.

LATER.—Fireman Tibbets died on his way to the hospital.

PARNELL'S LETTER.

Extract From a Loving Message to His Mother.

NEW YORK, Oct. 9.—A dispatch from Bordentown, N. J., says that Mrs. Delia Stewart Parnell, mother of the great Irish home rule leader, who lies dead at his home in Brighton, England, has consented to the publication of the following extract from the last letter she received from her distinguished son: "I am weary, dear mother, of these troubles—weary unto death, but it is all in a good cause, and with help and the assistance of my friends I am confident of the result. The statements of my enemies, so often made regarding my relations with you, are on a par with the endless calumnies they shoot out at me from every bush. Let them pass. They will die from their own venom. Indeed, it would be dignifying them to notice their existence."

THE MOUTH OF A PELICAN

Serves as a Receptacle for Smuggled Goods.

NEW YORK, Oct. 8.—An afternoon paper says the police are looking for a Mrs. Yancey, who is accused by a Chicago diamond importing firm of absconding with $80,000 worth of diamonds which she smuggled into the country for them. It is said that in her career as a smuggler she has defrauded the government of duties on $1,000,000 worth of diamonds. The diamonds are said to have been concealed in the mouth or pouch of a pelican which the woman always had with her, ostensibly as a pet.

ON THE SCAFFOLD.

Edward Neal Explains His Crime of Murder—He Refuses to Reveal His Right Name.

OMAHA, Neb., Oct. 9.—Ed. Neal, who was hanged at this city today, was convicted for the murder of Allan Jones and Dorothy Jones, an aged farmer and his wife, near the city, in February, 1890. Neal was a cattle thief, and shot the couple that he might drive off their stock at his leisure. The couple were unarmed and incapable of making any resistance. He buried their bodies under a manure pile, when two days later they were discovered by a searching party. Neal relied on the probability that his crime would remain undiscovered longer, and had hardly sold the horses and cows than he made a display of his money, bought clothes and jewelry, and was readily traced to the Kansas City train. He was arrested a few days later for stealing cattle near Kansas City and the Jones murder. The evidence was wholly circumstantial, but combined to make a strong chain. Neal had twice previously served terms in Iowa and Kansas penitentiaries for stealing cattle, and in each case his swaggering display of money and conspicuous attire led to his detection. He has passed under the aliases of Livingston and Kelton and has steadfastly refused to reveal his true name or make known his place of residence or any relatives whom he may have. The execution is the first in this county for twenty three years.

CHINESE EMIGRANTS

Flocking to the United States Through the Dominion Gateway.

OTTAWA, Ont. Oct. 9.—Customs' returns show a steadily increasing influx of Chinese into British Columbia from China with every indication that the present state of affairs will continue until some understanding is arrived at between Canada and the United States, by which the dominion will co-operate with the United States to prevent Chinamen from crossing the border from Canada in the United States.

KINGSTON, Ont., Oct. 9.—It is estimated that during the last four weeks over 200 Chinamen have passed through here into the United States. Twenty Chinamen are now in the city awaiting transportation. A local hotel keeper is getting rich handling the celestials.

RAIN TEN CENTS AN ACRE.

Prof. Frank Melbourne Proposes to Furnish Kansas at the Above Rate.

GOODLAND, Kans., Oct. 9.—Frank Melbourne, the Australian rain maker, closed his experiments at this place yesterday. Melbourne explained that the cold nights counteracted all the work he did during the day. Since his experimenting began Northwestern Kansas has had more rain than has ever fallen here before and the people are satisfied with his explanation. Melbourne was asked last night to submit a proposition for watering the forty counties in Western Kansas, and he offered to do it for ten cents for each cultivated acre. There were this year 2,000,000 acres under cultivation in the counties which it is proposed to water.

DESERTING THE LEAGUE.

New York and Brooklyn Knock at the Door of the Association.

NEW YORK, Oct. 9.—It is reported on good authority that the American association will locate a club in this city next season. It is also said that the association intends to attack the league in most of the cities where heretofore the league has had full sway. New York and Brooklyn are to be included in the new circuit. Many prominent base ball magnates, who have been until now identified with the league and who have grown dissatisfied with the new regime prevailing in the league, will, it is said, next year cast their fortunes with the association.

A WOMAN MISSING.

Heavy Losses in Grain Speculations Said to be the Cause.

CHICAGO, Oct. 9.—Mrs. Bernhart, wife of the well known optician, Dr. Morris Bernhardt, disappeared from her home, near Thirty-ninth street and Langley avenue, last Tuesday morning, since which time no trace of her has been found. It is rumored that Mrs. Bernhardt has lost heavily in deals on the board of trade lately, but it is not thought that she has committed suicide. Dr. Bernhardt refuses to talk on the subject.

The Work of the Deadly Razor.

PORT COSTA, Cal., Oct. 9.—A Frenchman named Ed Lattore got into a saloon fight over the Irish question Wednesday night. He was knocked down by an Irishman and left the saloon. He returned shortly with a razor and, in the fight which ensued, cut Dennis Lucy across the abdomen, disemboweling him. A man named Casey was slightly cut, and Ed Cronin was slashed across the face with a razor.

Louisville Throws Up the Sponge.

LOUISVILLE, Ky. Oct. 9.—The chances are that Louisville will lose its baseball club. The treasury is empty and the need of money most pressing to meet liabilities. A general meeting of the stockholders has been called for this evening, when a last effort will be made to raise the money to meet the demands.

IMPROMPTU DUEL.

Dorming and Fussel Indulge in One and the Former is Killed.

SAVANNAH, Ga., Oct. 9.—A. Dorming, one of the leading farmers of Irwin county, died at his home yesterday, the result of an impromptu duel fought on Sunday. For some time ill feeling had existed between Mr. W. B. Fussel and Mr. A. S. Dorming, which grew out of the recent murder by masked men of the deputy sheriff of Irwin county. Dorming had charged that Fussel was one of the assassins. On Sunday Fussel was in attendance at the neighborhood M. E. church, where he was a class leader. In the midst of the services Dorming drove up in a buggy. Fussel went out to meet him. The two men talked for about five minutes, when, simultaneously, shooting began, breaking up the congregation. Fussel was shot in the arm and side. Dorming received a bullet under the right eye, this bullet going almost entirely through his head, resulting in his death today. Fussel's wound is believed to be fatal.

WHEAT SPROUTING.

The Red Valley Crop is a Complete Wreck.

ST. PAUL, Oct. 9.—Reports received at the state capital yesterday indicate a most alarming condition of things in the Red River valley. It is there that the wheat crop was the heaviest and it was absolutely impossible to secure help to thresh the crop and it was left in the fields in stacks in the hope that the appeal of railway companies would effect relief in the near future. Then heavy rains fell and continued to drench the stacks. This was followed by cloudy weather and the stacks would not dry out. The result is the wheat has sprouted and been rendered almost valueless.

ST. PAUL, Minn., Oct. 9.—The reports from the wheat fields of north Dakota and northwestern Minnesota today are not encouraging. The weather is charming and threshing is in progress in a number of places. There being work plenty for threshers, the demand for them is more urgent than ever. Less than half is probably threshed and fears are still expressed that much of it will be lost.

WAITING ON HARRISON.

Canada Ready to Fix a Date for a Reciprocity Conference.

OTTAWA, Ont., Oct. 9.—Premier Abbott said yesterday that the Canadian government has not received any intimation that President Harrison and Mr. Blaine wished it to fix some date between October 25 and December 1 for a conference. He said that whenever the American government expressed a desire to have a date fixed he would be happy to do so. It is denied in official circles here that Mr. Tupper, minister of marine, has gone to New York in the interest of the Sayward case. He is merely on a pleasure trip.

LEADERS IN THE CHURCH.

The Synod of the Northwest of the Reformed Church on the Second Day of Their Session.

The second day's session of the synod of the northwest of the Reformed church in the United States opened this morning with devotional exercises, led by Rev. Barth, of Indianapolis, followed with the reading of the minutes of yesterday's proceedings. Rev. A. Seyring, of Cincinnati, delegate of the Central synod, then took the floor to extend the greetings of his synod to the conference in session in this city. In warm words he spoke of the interests which both bodies held in common and of the progress which they were making since they had been divided into two Christian armies at a meeting of the synod held in this city in 1878. Rev. C. F. Kreite, the president of the synod, in an eloquent way, then responded, alluding to the grand work which the Reformed church has done and is still doing in the different languages among the nations of the earth.

The committee on overtures then reported. It contained many features of interest and was referred to a special committee for action. Rev. H. C. Nott, of Milwaukee, Wis., then read the report on parochial schools, setting forth the difficulties and obstacles encountered in that work, and recommended that the faculty of the Mission House college at Sheboggan, Wis., arrange a normal course for the proper learning of the teachers in the schools.

This afternoon the synod is listening to an address delivered by Dr. Kelley, of Mechanisburg.

Rev. Hartman, treasurer of the orphans' home, located near this city, made his report yesterday. It shows that the institution is in fine working order and in first class condition. The receipts during the year were $12,465, and the expenses, $12,057. There is on the property, home and farm a debt of about $8,000, and it is pleasing to know that this will very soon be provided for.

The report of the board of publication was made by Rev. Jannett. The German publishing house located at Cleveland, Ohio, of which Rev. A. Baker is agent, was shown to be in a prosperous and flourishing condition and well managed throughout. The net profits for the year were very gratifying, footing up to $7,493.

Rev. Dr. Callendar, of Frederick, Md., secretary of foreign missions, presented his report of the work. This showed the foreign work of the church to be in a prosperous condition, presenting gratifying results and steadily advancing. In Japan the church has a membership of eighteen congregations besides some preaching stations. Five or six foreign missionaries are at work, together with a number of native evangelists. There is also located at Sendai, Japan, all in flourishing condition, a seminary, girls' school and a theological seminary.

Following the report of Dr. Callendar an overture was brought up for the organization of a German general synod, that is, a method for bringing the German ministers and congregations under one general synodical authority and government, and to report the advisability and practicability of such action a committee was appointed, consisting of Rev. H. A. Muehlmeier, D. D., Rev. C. Schaaf, D. D., Rev. T. C. Martin, D. D., Rev. I. H. M. Stein, D. D., Rev. O. Arcoli, D. D., C. Nott, O. Zipf and O. Vitz.

Last evening a large congregation assembled to hear a most excellent sermon delivered by Rev. Ruf, of Auburn, his subject being "The Way of Salvation." Tonight Rev. J. P. Moore, who for ten years has been engaged in mission work in Japan, will deliver an address in English on his mission work in that far off field. Rev. Moore is an eloquent speaker, and the attendants may be certain to hear something that will interest and instruct them. At this meeting Rev. W. Grether, of Franklin, Wis., will also speak in the German language.

THE BUZZARD DEGREE.

Knights of the Golden Eagle to Confer Work at Columbia City.

This evening a portion of the lodge of the Knights of the Golden Eagle will go to Columbia City, to confer upon several candidates the most exalted rank, known as the Buzzard degree. A Knight of the Golden Eagle is not away up until he can soar with a buzzard title. It is not stipulated that a knight must take this degree, but most of them come to it as it is a pleasing social auxiliary. At a meeting of the Eagles last evening the following members were appointed to go to Columbia City this evening to perform the work: John Miller, C. W. Ponce, Cyrus Spencer, H. E. Killen, William Richl, James Chamberlain, A. O. Buchman, John Boschet, G. Boschet, J. Benedict, John Phiem, George Seibold, sr., Julius Euler, John Wagner, Warren D. Wells, Herman Radtke, William Haskins, Ernst Johnson, George Plenger, George Keller.

BASE BALL INVESTIGATIONS.

The New York Players Bear the Charge of Crooked Playing.

The executive committee of the New York base ball club met yesterday at New York to investigate the charge of crooked playing on the part of the New York nine in the recent games with the Boston team. Messrs. J. W. Spalding and E. B. Talcott were the members of the committee in attendance. The charges were announced and were pushed before the executive committee. Those present were Daniel Richardson, Wm. and John Ewing, Roger Connor, Arthur F. Clark, Amos Rusie and John Buckley. These players all made affidavits to the effect that they had played honest base ball with the Boston club, and denied the allegations of crookedness made by Manager Hart, of the Chicago club. Mr. Spalding said that the executive committee would prepare and submit a report, with recommendations to the full board of directors of the club, at their meeting on Monday next. The players who made affidavits before the executive committee were indignant at the charges that they had played poorly in order that the Boston team might win. It was semi-officially stated that the players would be vindicated in the report of the executive committee.

SONS OF COLUMBUS.

A Meeting of the Grand Council to be Held in this City Next Tuesday.

Next Tuesday, at Library hall, will be held a session of the grand council of the Sons of Columbus, a fast growing Catholic order which had its birth in this city. The meeting will be held to revise and amend the by-laws and perfect plans for the extension of the order. O'Rourke, of this city, is grand admiral, and will preside at the meeting, while Vice-Admiral Louis Fox and J. T. Callahan, Dr. E. J. McOscar and O. B. DRIVEN TO THE WALL.

The Oliver & Roberts Wire Company Ask the Leniency of Creditors.

PITTSBURG, Pa., Oct. 9.—The Oliver & Roberts Wire company has failed and have asked for an extension. The other interests in which Mr. Oliver is interested are not affected. George Oliver, the president of the company, was seen at his office and made the following statement: "It is true that the Oliver & Roberts Wire company has been compelled to suspend payments. This suspension is caused partially by the embarrassment of Messrs. Nimick & Co., of this city. Mr. Alexander Nimick, the head of the firm, is indorser on our paper for a considerable amount. The paper is held by various Pittsburg banks and most of it matures during this and next month. Under the circumstances the holders do not feel justified in renewing it without additional security, which we are unable to give. The only course open for us is therefore to call our creditors together, lay before them a statement of our affairs and ask them for time. Our assets largely exceed our liabilities, and we expect to and will pay every dollar we owe, with six per cent. interest. The Oliver Iron and Steel company, of which Henry W. Oliver is president, is not involved in our embarrassment and does not expect to ask for any extension."

A RARE TREAT.

The Lecture of Dr. Gunsaulus at the Y. M. C. A. Tonight.

The opening night of the Star lecture course at the City Y. M. C. A. will be a grand success, and the management are in high spirits over the outlook, for the audience tonight will be a large one and composed of the best people of our city. A large number of extra seats have been placed in the hall, and the management still expects that all who may attend this evening (one hundred and more) will be accommodated.

Dr. Gunsaulus will lecture on the subject, "A Chapter in the History of Failures." He is a good speaker and will doubtless give a good address.

Arthur Reuter, the jeweler, has returned from Chicago.

SENT HIGHER.

Charles Miller Made Purchasing Agent at the Electric Works, and Carrol Gould Succeeds Him.

Official announcement is made today of several changes, wherein well-known and popular young men of this city are sent to higher positions. Charles Miller, who has long served as private secretary to H. T. McDonald, manager of the Fort Wayne Electric works, has been appointed purchasing agent of the company; Mr. Miller is succeeded by Carrol Gould, formerly a stenographer in the office of F. D. Casanave, superintendent of motive power of the Pennsylvania railroad company; who in turn is succeeded by Arthur Henderson of the motive power office. Mr. Henderson's successor is Mr. Eggeman, the bright son of Councilman P. Eggeman.

These advancements are rewards of industry, sobriety and faithfulness on the part of the ones who receive them. The young men are all competent and worthy of the recognition they have received. The position to which Mr. Miller is elevated has been much sought after, as a handsome salary is attached to it, and the place made vacant by his appointment is also an exceedingly desirable one. The other positions are regarded as very good ones as they promise something for the future.

THE scarcity of circuses in the land has been a great and grievous deprivation to the father and mother and uncles and aunts and dozens of neighbors who have, with generous self-abnegation, stood ready ever since the first blush of spring to take the baby to the show and see that nothing happened to the poor little darling while he enjoyed the entertainment.

THERE are three big campaigns in three great states this fall, Ohio, Iowa and New York.

THE United States census shows there are four million red headed people in the United States.

IT is not too soon to remark that next year is leap year and then the girls will have a chance to "pop."

"BLACK TONGUE" has appeared among the cattle of Porter county, and quarantine measures are being enforced. Scores of animals have succumbed to the ravages of the disease, in which the tongue turns black and rots away, and in many cases the horns fall off.

NELLIE BLY, the newspaper writer, who made the circuit of the world, was married to Mr. Charles Wetmore, an attorney of New York, on Wednesday. Nellie won't be able to gad around the world now. She will have to stay at home and cook beefsteak for her hubby.

THE national republican committee will meet in Washington November 19 or 21, to fix a date for the nominating convention, which will doubtless be held in May. Half a dozen cities are contesting for it, with the chances in favor of Chicago. Eight months from now politics will be boiling hot all over the country.

NEXT Monday our Jewish citizens will celebrate "Yom Kippur," or the Day of Atonement. It is the most sacred of all the Jewish holidays and is distinguished from every other holiday in that it is a period in which the penitent mortal communes with his Maker without any interruption during its entire length.

OSCAR WILDE claims to have written a play, a novel and a volume of poems which, if they have not brought him fame and wealth, have made him talked about. But his big brother has captured the woman whose wealth will place him above the needs of heavier literary labors than is called for in the signing of checks and the acceptance of invitations.

DEATH has just claimed two old Indiana women. Mrs. Nancy Brown, who died near Aston yesterday, would, in a few months, have been one hundred years old. The deceased was the grandmother of Dr. Brown, the dentist, of Indianapolis, and has resided in this state since its early settlement. Mrs. Polly Moore, aged ninety-two, of Fall Creek township, Hamilton county, is dead of injuries received in an accidental fall one week ago. She was a pioneer, having resided in that section ever since Indiana was admitted into the Union.

THE democrats of the Eighth ward met last night and organized a club. The following temporary officers were chosen: President, John Robyans; secretary, M. H. Boben; treasurer, Geo. Herrman. Speeches were made by Hon. J. M. Robinson, ex councilman H. P. Vordermark, Dr. E. E. Wheelock, Geo. R. Hench, Jacob Hartman and others. Another meeting will be held October 20th to elect permanent officers and adopt a constitution and by-laws. The committee appointed to draw up the constitution and by-laws are Geo. R. Hench, M. H. Boben and Clarence Edsall.

THE committee of the German Evangelical conference, which has been investigating the case of Bishop Dube for the past week at Indianapolis, issued its report yesterday. The committee declared that the trial proceedings were instituted and completed in accordance with the church law; that all the charges against him were fully sustained. The report closed with a resolution, declaring "that not only his suspension be ratified, but he is hereby deposed from his office as bishop and preacher in the Evangelical association and expelled from the church." Concurrence in the report of the committee was then put to a vote, and then the bishop was unanimously deposed and expelled from the church.

THE few cool nights we have had the past week have been a sort of impetus to putting up stoves. Putting up a stove is not so difficult in itself. It is the pipe that raises nearly all the mischief and all the dust. You may take a stove down with all the ease in the world and yet when you come to put it back again the pipe won't fit.

GEORGE W. COOPER, congressman from the Fifth district, is plaintiff in a suit on trial before Judge Harper, of the superior court at Indianapolis against the Union Railway company for $5,000 damages. August 22, 1889, Mr. Cooper went to Indianapolis to witness the laying of the corner stone of the Soldiers' Monument. In the evening, when he went to the Union Railway station to go home he was handled roughly by one of the gentlemen, he says. He says that although the train was on the track he was told it was not by the gentleman. When he attempted to go through the gate he was caught and forced back through the crowd. Mr. Cooper alleges that he was sick at the time, and suffered serious results on account of the assault.

THEOSOPHY TALKS.

Interesting Paper Read by Dr. A. P. Buchman—Judge O'Rourke Talks.

The Theosophical society met last evening at their pleasant rooms on West Berry street to listen to a paper read by Dr. A. P. Buchman on the subject, "Hypnotism, Magnetism, and Thought Transference." There was a large attendance, and the speaker held the close attention of his audience. The paper was a most able and interesting discussion of the themes suggested.

The doctor, after dwelling upon hypnotism and magnetism, spoke of thought transference. He said it was possible to transfer thought through other channels than the five senses. Man, he argued, had other senses than those commonly enumerated. Mind is force and thought is matter, in many senses. The latter may be conveyed from one mind to another in other ways than through the five senses, provided there is a superior will, a fixedness of purpose, and the power of concentration.

The paper was most ably written, but the subject matter was of that metaphysical character that THE SENTINEL reporter dare not attempt to give the points touched for fear of misquoting the doctor.

In the discussion on the paper Judge O'Rourke participated and after coinciding with the doctor upon some of the thoughts presented branched off into a general talk upon the subject of theosophy and its claims upon those who are aiming to benefit mankind. Theosophy, he said, was not opposing religion, but it was seeking to lift men higher, to know themselves and in so doing to fit themselves for those higher planes which God intended they should occupy. The judge showed a familiarity with his subject and his talk was a most interesting one.

The society meets every Thursday evening. Papers are read by some of the members and a general discussion follows.

When near the Pebble minded institute the tongue of the wagon slipped from the neck yoke, and the horses ran away. The horses ran into a fence around the property of Mrs. Bates and stopped without any injuries resulting to Mrs. Wellman and the children, although they were considerably frightened. Mr. Pierson was badly injured and was taken to the feeble minded institute and Dr. Laubach summoned. He found the man's left arm fractured in three places, and he also thought he received internal injuries. Mr. Ray's injury, while quite painful, is not at all serious.

A NIGHT AT THE CIRCUS.

Pretty Nellie McHenry and Her Company Here Tomorrow Night.

This popular comedienne will appear at the Temple tomorrow evening in "A Night at the Circus." A dual part, M'lle. Madeline Milan, a visiting governess, demure, practical, shy and retiring, and M'lle. Electra, queen of the arena, a rollicking, roystering, rattling circus premierre, is essayed by Miss McHenry, who needs no introduction to the play going public. The double character suits her as if made for her, as indeed it was. She is constantly in evidence and constantly leads the scene, her songs, her dances and her amusing by-play, rendered with unflagging spirit and animation, claim the attention of the audience throughout the performance.

The third act takes the characters into the dressing tent of the circus, and here the pace becomes fast and furious, an uproarous jollification keeps the stage and the house in a turmoil of ridiculous misadventure, laughter and applause. It seems impossible that the action can be kept up with such a tremendous burst of speed to the finishing post, but the play and the players are equal to the emergency, and the curtain comes down on a climax befitting the occasion. Pretty Miss McHenry will have a large audience tomorrow night.

In Memoriam.

The following resolutions were passed at meeting held at New Haven of the Charity Lodge No. 17, D. of R. of I. O. O. F., in respect to the memory of sister Inez E. Rogers:

WHEREAS, The Great Ruler of the Universe has in his infinite wisdom removed from our midst after a lingering illness, our dearly beloved sister, Inez E. Rogers, September 24, 1891.

WHEREAS, By purity of life and conversation, by kindness of spirit, and grace of conduct, by patience and fidelity in discharge of her many duties of our order, she has inspired us with nobler views of life which will be held in grateful remembrance,

Resolved, That the removal of such a devoted sister leaves a vacancy and shadow that will be deeply felt by all members of our order and its friends.

Resolved, That we, the members of the Rebekah Lodge, should fully realize that we will soon be called from this earthly pilgrimage; that we may so live that when the summons comes we may be prepared to meet our sister, where sickness, pain, death and parting will be no more.

Resolved, That the charter of this lodge be draped in mourning for a period of thirty days in respect of our departed sister.

Resolved, That a copy of this be submitted to the family of our deceased sister, that they may be entered upon the records of the lodge, and also published in our county papers and the Odd Fellows' Talisman.

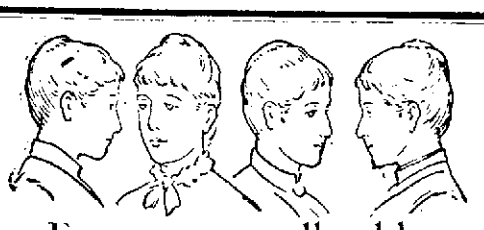
Packing House Burned.

DETROIT, Oct. 8.—The Parker, Webb & Co. packing house, of this city, was damaged $100,000 by fire this morning. One man was burned to death. About a dozen others were more or less seriously burned and injured.



Four women, all told

The first told how much easier it was to wash with Pearline. She saved half her labor, and the work was better done.

The second told how much longer the clothes lasted, since she'd used Pearline. The rubbing that wore them out wasn't necessary.

The next told how many things she did with it; she washed the kitchen floor, or the finest china—the most delicate lace, or the coarsest fabric. Whatever she did with it, she saved money by it.

The fourth told of the harmlessness of Pearline. She had used it for ten years, and she *knew* nothing that was washable could be hurt by it.

These are only four out of millions who use Pearline, but the others say the same things and more. Try it yourself; then you can tell about it.

Beware Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, do the honest thing—*send it back.* 381 JAMES PYLE, New York.

The sheriff has started for the scene of the execution with his two prisoners, and as Tiptonville has not a railroad nor telegraph, the commutation has been sent from this place by horse, a distance of forty miles.

A Fifth Avenue Fire.

NEW YORK, Oct. 8.—Fire this morning at 11 o'clock destroyed the four story brown stone mansion at 101 Fifth avenue, owned by Mrs. Haywood Cutting and occupied by Mr. and Mrs. August Belmont. Mr. Belmont was not at home, but his wife, two children and a number of servants had narrow escapes. The building was completly gutted. Loss, estimated by the police, $200,000.

"When lovely woman stoops to folly," and goes out in the snow without her India rubbers, the only art to cure her cold is to buy one bottle of Dr. Bull's Cough Syrup at 25 cents, and take it.

"Speak this speech, as I tell you, trippingly on the tongue." Say that one of the great benefactions of the age is a small bottle of Salvation Oil, the greatest cure on earth for pain. Only 25 cents.

Eighty per cent. of the dogs in New York city are unlicensed.

C. Adams, night yard engineer at the Pittsburg, is off duty on account of sickness.

Jerry Ziegler, a switchman, attended the funeral of his sister at Van Wert yesterday.

Engineers A. J. Yon and J. Hartigan, of the Nickel Plate, took a lay off a part of this week.

The lumber traffic from Michigan this year will fall far below that of the two preceding years.

Pittsburg Fireman G. H. Brown has resumed his run. He was laid up for a time with a lame leg.

New Agents are in charge at Milton, Templeton, Mt. Cory and Montpelier on the Lake Erie and Western.

A. L. Griffith, with the Lake Erie and Western for the past decade, of Lake agent at Elwood, has resigned.

Brakeman Timmons, who was working on a local run on the west end of the Pittsburg, has returned to this city.

M. Kirby, engineer on the Pittsburg, who has been off duty on account of the serious illness of his wife, reported this morning.

Harry Bollen, a switchman in the Nickel Plate yards, is suffering with a felon, in consequence of which he is taking a lay off.

The funeral of Mrs. Fred Goreline, wife of the Grand Rapids brakeman, occurred at 2 o'clock this afternoon and was well attended.

Nickel Plate Conductors Harper and Skinner are taking a few day's rest. Brakeman Lampert, of the same road, is also on the "off duty" list.

A Wabash freight car jumped the track at Delphi yesterday morning and the accident delayed east-bound passenger train No. 34 an hour and a half.

Conductor Sylvester McMahon has returned from an eastern trip and will soon resume his run on the Pittsburg. His two daughters accompanied him east.

U. L. Truitt, representing the passenger department of the Chesapeake and Ohio railway, was in the city last evening. His headquarters are at Cincinnati.

James Ludington, the Pittsburg machinist, is not so enthusiastic in turf matters today as he was yesterday. The boys say that the race at Grand Rapids went against him.

J. A. Hughston, of Chicago, the traveling passenger agent of the Union Pacific, was in the city last evening. Mr. Hughston is always welcome here for he has lots of friends.

Arrangements are nearly completed to heat all passenger trains on the Fort Wayne road by steam. At present there is only one train on the road heated by steam and that is the limited.

The delay in the shipment of car supplies from Pittsburg is causing the heads of the different departments in the Fort Wayne shops considerable annoyance. They need certain kinds of material badly.

Joe H. Schwerzgen last evening received notice of the consolidation of the Order of Railway Conductors and the Brotherhood of Railway Conductors, which was effected at the Cedar Rapids meeting yesterday.

John Kretsinger, foreman of the Pittsburg planing mills, is in receipt of a letter from his wife, who has been in Michigan three months undergoing treatment for rheumatism. The lady writes that her health is much improved and that she can now get about with the assistance of a crutch. Mrs. Kretsinger will return home tomorrow.

Nickel Plate Conductor McCormick has resumed his run after a pleasant vacation.

J. Daly has taken a position at the Electric works, having resigned the one he held with the Base works.

The Grand Rapids road carried 600 passengers into Grand Rapids yesterday. All went to see the races.

Engineer R. E. Doty, of the Pittsburg, has recovered from his illness sufficiently to return to active duty.

Engineer B. Reidt and Fireman W. Nolestine, of the Grand Rapids, have gone to Grand Rapids to get engine 44, which has just been turned out of the shops.

The Pennsylvania company is going to have a cool famine if the miners' strike continues much longer. The outlook is decidedly discouraging to the company.

One of the most popular engineers on the Pittsburg road is James Southern, who runs Nos. 1 and 40. He has worked for the Pennsylvania company for thirty-three years.

The Pennsylvania inspection party, headed by George Roberts, president of the Pennsylvania system of roads, will next week begin their inspection of the lines west of Pittsburg.

O. E. Day, cashier at the freight depot of the Lake Erie and Western at Muncie, has resigned and gone to Chicago to seek employment. S. A. Swisher succeeded Day at Muncie.

Tomorrow is pay day at the Bass works, Peters Box and Lumber works, Fleming works, Ft Wayne Iron works, Indiana Machine works, Hurton Manufacturing company and the Kerr Murray works.

George T. Baker, Nelson Robinson and Edward Tuck were elected directors of the Lake Erie and Western road at the meeting in Bloomington, Ind., last Wednesday. They will serve for three years.

The Union depot at Chicago will probably be torn down and replaced by a more commodious and handsome structure. The roads interested are the Pittsburg, the Chicago, Burlington and Quincy, the Milwaukee and St. Paul, and the Chicago and Alton.

The Ada excursions yesterday were a disappointment to the Pennsylvania company. They carried only 3,000 passengers into Ada, whereas the company was lead to believe that the number would be at least 8,000. Lima was the only city that sent her full quota of excursionists, about 1,500.

The Old Fort Pulley works today resumed operations in all departments with a full force of men. For some time past the works have been operated with a curtailed force but the increasing business accounts for the change. Superintendent Wilding says that the works will be run to their fullest capacity all winter.

Alex Kinnaird, the popular young machinist at the Pittsburg, has been promoted to assistant scale inspector of all that portion of the Pennsylvania system west of Pittsburg. Mr. Kinnaird, in his five years' residence in this city, has won the esteem of all our citizens and is especially popular with his fellow shopmen, all of whom will be glad to hear of his promotion. He left yesterday for Ohio, where he will inspect the scales in that state. The chief inspector is Mr. Taylor, who is here today.

A meeting of the local lodge of the Brotherhood of Telegraphers will be held at the O. R. C. hall, over App's shoe store, tonight, for the purpose of reorganizing the lodge into a division of the Order of Railroad Telegraphers, pursuant to the terms of the consolidation effected last month at St. Louis. It is expected that a large number of B. of T. and O. R. T. men will attend the meeting, some coming from a distance on the several lines running through the city. J. H. Schwerzgen, as deputy grand chief, will act as master of ceremonies.

General Passenger Agent Smith, of the Lake Shore, appears to be determined in his efforts to stop the commission business, at least so far as the company is concerned. Investigation shows that no western line betrayed the ticket agents of the Lake Shore, and their discharge was brought about through the successful scheming of Mr. Smith, aided by some trusted subordinates. At one important office he was surprised that so many coupon tickets were sold reading over an indirect line. To prove this he told the agent he deserved a rest, secured him transportation for himself and wife, and sent him off, although the agent was rather reluctant about going. An agent was put in his place without posting him as to the object, and during the month not a coupon ticket was sold over the route which had been so popular with the old agent, passengers all being routed over more direct lines. Other schemes were resorted to, until the agents on the roads had been pretty thoroughly tested, and those against whom sufficient evidence had been gathered were dismissed from the service of the company, President Newell approving their discharge.

In a case appealed from the Whitley county court to the supreme court, entitled the "Pennsylvania Company vs. Mary C. Bruch, administratrix," the decision of the lower court was affirmed. The following is the decision of the supreme judge: "A railroad company who knowingly permits a defective tie to remain under its track in its switching yard, and thereby a train hand, who had no knowledge of such defective tie, in coupling cars is injured without his fault, is liable for such injury and in case of his death is liable to his administrator."

The Pennsylvania company has inaugurated a new system of conducting pleasure tours. Last season they gave to the eastern people personally conducted tours to the mountains of Maryland and Virginia, $50 covering a nine day tour and all traveling expenses. These tours have become very popular with New York and Philadelphia people, and no doubt would be well patronized if they were to be introduced in this section of the country. The advantage of this system is in showing just what an excursion is going to cost the excursionist.

One of the reliable men on the Wabash railway is Engineer Grover Mattoon, whose run is on the fast line between Andrews and Toledo. Mr. Mattoon began service with the Wabash as a locomotive engineer in 1860. He has been with the company nearly thirty-two years and is one of the oldest engineers on the road. His regular trips on the Wabash express will average about 5,000 miles per month; counting the circumference of the earth at 24,000 miles, this gentleman would travel far enough each year to pass more than twice around this globe and in these thirty two years it is safe to say he has traveled a distance equal to sixty trips around the wide, wide world.

A dispatch from Cedar Rapids this morning reads as follows: "At a meeting held yesterday between the committee appointed last September by the Brotherhood of Railway Conductors and the board of directors of the Order of Railway Conductors a consolidation of the two organizations was provided for. The consolidated association will continue under the title of Order of Railway Conductors until the matter can be finally passed upon by the grand division of the order. The latter organization is to accept the membership of the former and to be continued as at present organized. It was unanimously agreed that the organization as consolidated should use its influence in favor of general federation between all organizations in train service."

The Great Benefit

which people in run down state of health derive from Hood's Sarsaparilla, conclusively proves that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength, but Hood's Sarsaparilla will build up in a perfectly natural way all the weakened parts, purify the blood, and assist to healthy action those important organs, the kidneys and liver.

A Gift From Her Pastor.

"In June, 1889, after the great flood," says Mrs. E. L. Henrie, of Johnstown, Pa., "at a time when I was very much run down with diarrhœa and had tried two doctors without finding relief, I received a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy from my pastor. This remedy relieved me at once, and cured me entirely in a short time. I got several bottles and gave it around among my acquaintances who were afflicted in the same way." For sale by druggists.

The ex Empress of Brazil possesses a remarkably complete collection of butterflies.

I have been bothered with catarrh for about twenty years; I had lost sense of smell entirely, and I had almost lost my hearing. My eyes were getting so dim I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did, my sense of smell is partly restored, and it seems to be improving all the time. I think here is nothing like Ely's Cream Balm for catarrh. Mrs. E. E. Grimes, Kendrill, Perry Co., O.
